# Instructions for Schedule OC

Use this schedule to compute credits available to you.

## Part A –

### Credit For Taxes Paid To Other States

You must complete Schedule CR to calculate the available credit for taxes paid to other states. NOTE: If you are **ONLY** claiming a credit for taxes paid to other states, do not complete Schedule OC.

## Part B –

### Basic Skills Education Credit

This credit is available to resident and nonresident **employers** who provide to employees basic skills education programs approved by the Alabama Department of Education. Expenses incurred for or relating to instructors, materials, or equipment used in the qualifying program, or for supplies, textbooks, or salaries, including compensation paid to employees while participating in the basic skills program may be used in calculating the credit. The credit will equal 20 percent of the actual costs of education limited to the amount of the employer's income tax liability. A credit will not be allowed for employers receiving reimbursement for any cost of the education.

## Part C –

### Rural Physician Credit

This credit is available to licensed resident and non-resident physicians who **practice and reside** in a small or rural Alabama community of less than 25,000 residents with admission privileges to a small or rural hospital having an emergency room. Under the terms of this credit a "small or rural hospital" is defined as an acute care hospital with less than 105 beds, located more than 20 miles from another acute care facility, or which receives Medicare rural reimbursement from the federal government. The amount of this credit is \$5,000.00 per year and may be claimed for not more than five consecutive tax years. No credit will be allowed to physicians meeting the requirements on or before May 5, 1993 nor to a physician having previously practiced within a rural community unless he/she returns to such practice after having practiced in a large or urban community for at least three years.

## Part D –

### Capital Credit

The capital credit is available to investing companies and their recipients involved in a qualified project undertaken by certain new businesses to be located in the state and certain expansions of certain existing businesses. To qualify for the capital credit, the project entity must be registered with and approved by the Commissioner's Office of the Alabama Department of Revenue. The capital credit claimed for the tax year shall not exceed 5 percent of the actual capital costs, as defined in the law, of the new business or expansion of an existing business for each of 20 years. The capital credit shall be provided to each investing company and its shareholders, partners, members, owners, or beneficiaries on Form K-RCC provided by the reporting company. Each recipient in the investing company will be allowed a capital credit according to the distributive share, whether or not distributed, of the project's Alabama taxable apportionable income.

This capital credit **CANNOT** be carried forward or back by any recipient. The capital credit is limited to the individual's current tax year liability and is applied after all other deductions, losses, or credits permitted under Titles 40 and 41, *Code of Alabama 1975*. **The Form K-RCC must be attached to the individual return in order to be eligible to receive the capital credit.**
